## New Program! Practitioner of Energetic Arts

The Practitioner of Energetic Arts Program is designed for those who are interested in developing their skills and practice in energy healing, balancing, and activation. We will explore two primary modalities in this program: Reiki and Electromagnetic Field Balancing. This is an expanded curriculum that includes quantum mechanics physics and the Abraham teachings of the Law of Attraction to provide the most leading edge (and fun!) experience of your personal energy anatomy and how it relates and interacts with the universe at large.

Complete descriptions of each class are provided below. This program is intended for those who wish to enhance their personal spiritual development and to offer others the ability to do the same. Participants receive Certificates of Completion from the Magnificent Living Institute after each course.

To emphasize personal skill development for each participant, I'm limiting attendance to six students. Each class will be held on the third Saturday of the month, with the Practicum on the third Tuesday evening of the month.

Because undergoing training of this sort can be a rather turbulent experience in terms of personal growth, and confronting one's patterns of resistance, I'm offering one-on-one coaching for participants of the program at a discounted rate.

There are two ways to participate in this Program:

1. Enroll in the Program, attend all ten classes and practicums for each level. \$200/month
2. Enroll in individual classes only and receive your Practitioner of Reiki or EMF at the completion of each class. \$200 for class; \$20 for each practicum attended

Recommended personal attributes of the individual who enrolls in this Program:

- you are interested in delving into your electromagnetic nature and experiencing firsthand the mysteries of your being and what is possible for you
- you want to learn how to manage and direct your energy, emotion and experience
- you are ready to assume full responsibility for yourself, your actions, beliefs, story, focus, follow-through, lifestyle and finances
- you don't believe that there is anything to "fix" about other people; rather, you would like to offer yourself and others the opportunity for increased self-awareness, introspection, spiritual expansion, balance, integration, joy and empowerment
- You want to feel good and you want to provide the opportunity for others to feel good.
- you are not interested in drama
- your heart is telling you that "yes this is the path for me! this sounds perfect for me!"

What I will bring to this experience:

- a safe, comfortable and relaxed environment
- guided meditations to knock your socks off!
- recommended reading to deepen and round out your learning
- books and handouts which cover the material from class
- chocolate
- additional resources for you to follow up with on your own if you are interested
- my commitment to uplift, encourage and inspire you
- 15 plus years of experience with thousands of clients
- my philosophy of "we're here to have fun and create, not to fix. And we can have more fun if we understand how we're getting what we're getting so we can start getting what we want!"

Please contact me if you have any questions about this Program. I am happy to help you figure out if it's a good fit for you.

## **Electromagnetic Field Balancing**

We are now experiencing a time of accelerated human evolution, and our energy bodies have evolved to keep pace with that transformation. EMF Balancing is an energy method that uses the Universal Calibration Lattice, the evolutionary model of the human energy field. This system calibrates the connection of our personal lattice with that of the universal lattice or Matrix, allowing us to release energy charges from old events, as well as worry or anxiety about our future. Each phase utilizes specific templates of sacred geometry, and in the same way that electrical circuits are rewired to allow for higher voltages, our systems are rewired to allow greater energy to flow through the entire circuitry of our body. Through this process you may transform your life gracefully, be "on purpose," deepen your energetic connections to the Earth and the Cosmos, integrate your mind, body and spirit, accelerate your DNA transformation, and experience a profound sense of peace-filled empowerment. "Healing" is often the result of this new state of being. EMF Balancing complements and strengthens any other modalities you may currently be practicing, and is a powerful and highly practical personal and spiritual growth tool. Students receive a Certificate of Completion as an EMF Balancing Practitioner at the end of each Session from The Magnificent Living Institute.
